Fred Lee presented the membership report. The club had six (6) new applications for membership, two (2) cancellations and zero (0) terminations for the month of March. Five (5) individuals are on medical leave. Membership receipts for March were \$41,147. Forty (40) members are currently on the unlimited golf cart plan. Three hundred fifty-six (356) members are currently on the autopay plan. Current membership stands at four hundred thirty-seven (437) paying members with a total membership of four hundred fifty-one (451) members. T. Smith made a motion to accept the membership report; seconded by C. Carter, motion carried.

GOLF COURSE

Bobby Bradley reported that the new sod had been laid on the putting green along with the greens on holes 13 and 14. Bobby Bradley stated that aerification of the greens had begun but was slowed by a belt breaking. All greens were expected to be aerified, verti-cut and top-dressed by the weekend. Poa annua grass on the greens was in the process being sprayed with a new herbicide. John English reported that the poa annua tends to become resistant to herbicide after a period of time. The new herbicide being used was expected to take care of the problem. A potential falling tree resulting from the recent windstorm to the left of #5 being green is being watched closely. It will need to be cut down eventually. After discussion, the board decided to table the purchasing of an extended warranty for the Kubota tractor purchased in 2022 till the Fall.

PRO SHOP

Junior golf is up to (25) twenty-five kids. The course being flooded four times since December has hurt pro shop sales numbers. As a result, green fees, cart fees, and merchandise sales all down. Rounds are up this year (3,164 total) compared to 2022 (2,296 total).
